OUR MISSION

To connect the next generation with careers in maritime, shipping, and logistics while fostering a lasting appreciation for the industry, its people and its impact on the environment and the economy.

WHO WE ARE

A national education non-profit. We pair direct engagement with industry professionals and operations with classroom instruction and hands-on training, connecting the developing workforce to real opportunity.

Our goal: maritime careers that are **visible, attainable, and valued**.

The PROPEL Model HOW WE IMPACT THE MARITIME WORKFORCE

- P** **People** benefit when career seekers are connected with career providers.
- R** **Resources** equip educators to serve those being educated.
- O** **Opportunities** are created by expanding access, awareness, and impact.
- P** **Partnerships** flourish when schools, industry, and government coordinate.
- E** **Education** builds awareness of maritime careers and our waterways.
- L** **Leadership** results from elevating the voices of the next generation.

WHY IT MATTERS

A stronger, more skilled workforce creates safer waterways and a stronger America. Students prepared to move from learning to work make informed career decisions, and age-appropriate training builds respect for our waterways, environmental responsibility, and the industries they support.

PARTNER WITH US

Stronger relationships between schools, communities, and businesses connect today's leaders with tomorrow's.
